A. Read the text and answer the questions:

2PNTS

Thomas and Luke are twin brothers. They are both 12, and they study at the same school. Thomas is a very good student. All his teachers appreciate his hard work, but Luke is different. He isn't like his brother, Thomas. <u>He</u> doesn't like school, and he spends most of his time chatting on Facebook with some friends or strangers.

However, Luke is really ambitious since he wants to be an informatics inventor. His dream is to create a smart phone\_the most sophisticated and intelligent smart phone in the world. Their parents, Stevens (53) and Maria (47) always tell Luke: "no one can reach his dreams without education." "You must study hard to get what you want." Stevens and Maria are sure that Luke will change his opinion about school in the future. They say: "we are certain that he is will be like his brother."
